

Year 1- Goldfinches and Owls

Houses Homework

Our topic next term is about homes.

To start off their learning we would like your child to do a mini project about their home. We have found that this project really helps our children to be engaged in the topic. They love to share their work with the class.

Ideas that they could do:

- *Draw and label the outside of your house.
- *Create a floor plan of all of the rooms.
- *Write about your favourite room and why it is your favourite.
- *You could even create a model!

Please feel free to include drawings or photographs if you would like to.

Please support your child to do this but encourage as much independence as possible.
