

Calmore Infant School Curriculum

All our children have access to a broad and balanced curriculum. Regardless of gender, race, religion, age or ability.

We believe that learning should be fun, relevant and motivating. We believe in the importance of providing relevant, meaningful learning experiences centred around play and investigation.

Our curriculum is delivered through cross curricular topics that enable children to make links between subjects and to encourage enjoyment.

All our topics have a 'hook' at the beginning to draw in children's interest and an outcome at the end which may involve a visit, sharing work or a special day planned to bring together all our learning.

Please look at our topic overviews and our topic webs to show the links between subjects.
