

Ducklings

Penguins

Learning Log Week beginning 19th February 2018

Maths learning

In maths this week we have been learning all about 3D shapes. We looked for shapes within our environment and made models using junk modelling materials. We have discussed which shapes are best for rolling, sliding or stacking.

Phonics

We continue with daily phonics groups. Please encourage your child to Fred talk as many words as they can.

In phonics sessions we practise saying a sentence, in order to help us write it. We call this hold a sentence.

Some examples are:

A slug in a pot

Sit with the cat

Can you have a go at writing your own hold a sentence?

Reminders

Welcome back

Please can you ensure that reading folders come to school every day, as they are needed for sound group.

Thank you to all the children who have taken part in Milly's maths challenge. There is still time to send you work in to school. How many 2D shapes will you find around your house?

Have a wonderful weekend!

Special week

This week started in a very funny way...there were pants all over the school! We went on a welly walk to investigate and found a strange collection of materials on the field. We had an emergency meeting to discuss what could have happened. We then found out some friendly aliens had lost their pants and needed our help to return them. We have had a fantastic week creating our own creatures and describing them in our writing.

Challenge time

This week your challenge is to see how long you can hop on one leg. Can you swap legs? Which leg is easier to hop on?

Please visit our website or our blog calmoreinfantsblog.co.uk for more information and news!
