Penguins

Learning Log Week beginning 8th May 2018

Problem solving

Our maths challenge this week has included us looking into how we share. Thinking about the Royal Wedding next week, Princess Lilly had a problem. She had 15 gems to share between 2 Royal Subjects. How could she do this?

The children were able to discuss amongst themselves how to solve this problem.

How could we share this out fairly?

Phonics

We use our phonic knowledge to help us in our writing every day.

We encourage the children to:

Think it, say it, and write it,

This helps the children to focus on what they want to write.

Can you have a go at home? You could write about our trip to the farm.

Challenge time

In our football coaching this week, we had to pretend to be crabs. Can you walk like a crab? Can you move sideways, forwards or backwards?

Good luck

The Royal wedding

We are all excited about the Royal wedding, we have a new castle role play, and we are busy making crowns to wear at the red, white and blue picnic.

Reminders

Thank you for all the reading support you give at home. Some reading diaries are looking quite full now! We encourage your child to independently change their own reading books weekly. We will remind the children every Friday morning during registration to make sure they have all done so.

Next Friday is our Red, White and Blue day. Please can the children come into school wearing these colours. Our Picnic lunch will be that afternoon. Please arrive at the Junior School field for 11.50am to meet us at 12.

Thank you
