

Uganda day

To introduce our geography based topic this half term, year 2 were visited by Chris from education Uganda, who helped us understand what life is like in Uganda. One theme that ran throughout the day was 'the same but different'. The children soon realised that they had a lot in common with children in Uganda.

We began the day by being detectives, looking for clues to compare life in England and Uganda.

We explored housing, animals, toys and recycling. We weaved colourful patterns too.

We got to experience what life was like for a child in Uganda. We collected water, fed the goats, swept the ground and even went to a Ugandan school, where we learnt to say and write the numbers to 3.
